

The SCCA Integrated Psychosocial Oncology Program integrates state-of-the-art psychosocial care into a patient's cancer care

INTERESTED IN PSYCHO-ONCOLOGY AND INTEGRATED CARE? We're hiring in Seattle!

The **University of Washington Department of Psychiatry and Behavioral Sciences** is a leader in the research, implementation and workforce development of collaborative care and related services and we continue to expand every year. We are currently hiring a full-time faculty member in Psycho-Oncology and Integrated Care / Telepsychiatry. The successful candidate will join our highly regarded integrated psychosocial oncology program at the Seattle Cancer Care Alliance (SCCA), ranked one of the Top 10 cancer centers in the country. He or she will also join our rapidly-growing, outpatient integrated care and telepsychiatry program. In addition to clinical duties, teaching and research are highly encouraged.

We seek motivated, passionate people excited to develop their clinical, supervisory and mentorship skills in the emerging fields of integrated care and telepsychiatry. Experience in consultation-liaison psychiatry and multidisciplinary collaboration are essential. The successful candidate will have expertise in psycho-oncology, diagnostic assessment, psychotherapy, psychopharmacology and behavioral therapies. Applicants with strong academic potential in research or education are preferred.
