

**City of Hope Medical Group is seeking a full-time, licensed, Clinical Health Psychologist** to join the Department of Supportive Care Medicine in Duarte, CA. This faculty position will focus primarily on clinical care with opportunities for teaching and conducting collaborative research. The role encompasses providing Consultation/Liaison inpatient services and outpatient psycho-oncology services to a diverse population of people treated at our comprehensive cancer center. Outpatient services provided both in person and telehealth formats. You will enjoy working with a multi-disciplinary team of supportive care providers from fields including: psychiatry, supportive medicine, clinical social work, child life, nursing, patient and family education, and chaplaincy. For more information about the Department of Supportive Care Medicine, please see our website: [Department of Supportive Care Medicine at City of Hope in Southern California](#)

**Position Highlights:**

As a member of the Psychology Team, you will be working with patients, families, and caregivers to meaningfully improve their medical, psychosocial, and behavioral health needs during and after cancer treatment. You will be joining a team of 3 Consultation/Liaison Psychologists, 1 Neuropsychologist, and 2 Clinical Research Psychologists. Additional opportunities include participating in training in our Health Psychology Fellowship, participating in clinical research, and developing programs based on patient care needs.

**Requirements:**

- Doctoral Degree from an APA-approved program in Clinical Psychology
- Licensed in the State of California
- Training and appropriate experience in consultation/liaison psychology, health psychology, and working with a medical team
- Preferred candidate will have experience in psycho-oncology and working with both hematology and medical oncology patients
- Candidates with diverse backgrounds are encouraged to apply

**Benefits:**

- Competitive salaried position and potential for incentive
- Annual CME allowance
- Relocation assistance available on a case-by-case basis
- Excellent benefits package, including a generous retirement plan

**Who We Are:**

This position is a rare opportunity to work in a 400+ member integrated, multidisciplinary Medical Group Practice serving an NCI-designated comprehensive cancer center in highly desirable Southern California, within our Department of Supportive Care Medicine.

City of Hope is an independent biomedical research and treatment center for cancer, diabetes and other life-threatening diseases. Founded in 1913, City of Hope is one of only 51 comprehensive cancer centers in the nation, as designated by the National Cancer Institute. It has been ranked among the nation's "Best Hospitals" in cancer by U.S. News and World Report for 14 consecutive years. City of Hope has built a legacy of being a world leader in cancer research, treatment, and prevention and recently extended its reach beyond Duarte to include 30 community sites in Los Angeles, Orange, Riverside, and San Bernardino counties.
