Postdoctoral Fellowship in the Cancer Outcomes Research & Education Program at Massachusetts General Hospital/ Harvard Medical School

The Department of Psychiatry of Massachusetts General Hospital (MGH) / Harvard Medical School is seeking to hire a **Postdoctoral Research Fellow** who will be a member of the [Cancer Outcomes Research & Education \(CORE\) Program](#) in the MGH Cancer Center. The fellow will be eligible for at least two years of salary (competitive) support. They will have an academic appointment at Harvard Medical School and should have completed the requirements for their Ph.D. This position has the potential to lead to a faculty position depending on the candidate's ability to develop their own clinical research and collaborate with existing federal or foundation-funded projects. Ideal applicants are those with a background in clinical psychology or social work who plan to transition to an academic position after the fellowship period. A successful candidate will have a strong demonstrated interest and experience in clinical intervention research in psychosocial oncology and cancer outcomes, and those with experience working with people with different types of cancer, their caregivers, cancer survivors, or those at end-of-life are encouraged to apply.

Primary Responsibilities and Opportunities:

- Devote 100% of effort to psychosocial oncology/cancer outcomes research in the CORE Program
- Support ongoing studies focused on developing and testing supportive care interventions for patients with hematologic malignancies
- Assist with data analyses, manuscript writing (first and co-authored publication opportunities available), scientific presentations, and grant preparation
- Attend multidisciplinary research meetings including faculty from oncology, psychiatry, palliative care, social work, and nursing to discuss innovative research and clinical care
- Receive extensive mentorship in career development and on a submission of a future NIH or foundation grant

Position Requirements:

- PhD in clinical psychology or social work
- Prior experience working on clinical research studies
- Training in quantitative and/or qualitative methods and data analysis
- Prior experience in psych-oncology related work preferred

The *U.S. News & World Report* consistently ranks Mass General Psychiatry in the top among U.S hospitals, and MGH Cancer Center as one of the top cancer centers in the country. The MGH Cancer Outcomes Research & Education Program is a premier research program comprised of clinical investigators specializing in a wide range of disciplines who conduct innovative research to meet the psychosocial needs of patients with cancer and their families. Massachusetts General Hospital is an Equal Opportunity Employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.

Contact: Interested applicants should send a cover letter and CV to Joseph Greer, PhD at jgreer2@mgh.harvard.edu
