

**University of Colorado | CU Anschutz Medical Campus**  
**Division of Hematology**

**The Division of Hematology, Blood Cancer, and Bone Marrow Transplant Program at the University of Colorado Anschutz Medical Campus has an opening for an Assistant Professor – Clinical Psychologist.**

The University of Colorado Anschutz Medical Campus is a world-class medical destination at the forefront of transformative science, medicine, education and patient care. The campus encompasses the University of Colorado health professional schools, more than 60 centers and institutes, and two nationally ranked independent hospitals - [UCHealth University of Colorado Hospital](#) and [Children's Hospital Colorado](#) - that treat more than two million adult and pediatric patients each year. Innovative, interconnected and highly collaborative, the University of Colorado Anschutz Medical Campus delivers life-changing treatments, patient care and professional training and conducts world-renowned research fueled by over \$650 million in research grants. For more information, visit [www.cuanschutz.edu](http://www.cuanschutz.edu).

**Position Description:**

This psychologist (Ph.D. or PsyD) will be faculty in the Division of Hematology. They will serve the Blood Disorders and Cellular Therapies Center's clinical needs on the Anschutz Medical Campus. This population includes those with hematologic malignancies such as leukemia, lymphoma, and multiple myeloma and those undergoing bone marrow transplant or treatment with immune effector therapy such as those using Chimeric Antigen Receptor T-cell (CAR-T) to treat cancer.

This is a clinical position and is highly integrated with the medical team. The psychologist will provide assessment including pre-transplant evaluation, health and behavior interventions, and psychotherapy to individuals and families across both the inpatient and outpatient environment. This psychologist will join a dedicated psychosocial team comprised of psychologists, social workers, dietitians, and spiritual care providers and will spend a portion of their time coordinating with the medical and psychosocial teams to assure the needs of patients and families are met. The expectation is that this is a predominately clinical position. There will be opportunities for teaching, scholarship, and research as part of the assistant professor role; however, this position includes no protected time for non-clinical activities.

**Examples of Work Performed:**

- Provide Behavioral Health Services for inpatients at University of Colorado Hospital, outpatients in the Blood Disorders and Cellular Therapy Center, and patients off site through virtual visits, including but not limited to brief psychotherapy for concerns such as adjustment to illness, existential/end-of-life issues, and management of psychiatric illness, in addition to providing trauma-informed approaches, safety evaluations, pre-procedure evaluations and capacity evaluations for medical decision making
- Assist with unit/patient/staff relational dynamics and provide recommendations to help in cases involving complex patient interactions
- Develop educational programming and present at Division of Hematology Grand Rounds
- Participate in quality review activities and process improvement
- Contribute to the academic advancement of the discipline
- Keep abreast of the latest developments in the field, both academically and through applied skills
- Maintain collaborative engagement with the medical and psychosocial teams
- Maintain eligibility for SOM faculty appointment
- Occasional crisis intervention for difficult/challenging patient situations

This description is a summary only and is describing the general level of work being performed, it is not intended to be all-inclusive. The duties of this position may change from time to time and/or based on business need. We reserve the right to add or delete duties and responsibilities at the discretion of the supervisor and/or hiring authority.
