

## **Psychologist – Baptist MD Anderson**

Baptist MD Anderson Cancer Center and Baptist Behavioral Health of Jacksonville Florida are currently recruiting for 2 full-time licensed psychologists to work at Baptist MD Anderson Cancer Center with adult oncology patients and their family members. Qualified applicants must have a doctoral degree in psychology and be licensed / license eligible in the State of Florida. Training and experience in Health Psychology and experience in working with adult oncology patients preferred.

Our psychologists collaborate as part of a multidisciplinary treatment team. Responsibilities include: assessment of oncology patients, provision of individual, couples and family psychotherapy, attendance at daily multidisciplinary tumor board meetings and consultation / liaison with the BMDACC team.

Services are provided at the outpatient Cancer Center and include in-office visits, as well as telehealth via Zoom.

### **Distinguished Programs**

Baptist Health is proud to be the region's only health system providing the full continuum of mental health care for children and adults ranging from outpatient services and partial hospitalization to inpatient care at our state-of-the-art riverfront facility. Baptist Health is the region's most preferred health system and one of *Modern Healthcare's* top 100 places to work where we are integrating behavioral health practitioners into primary care, cancer care, neurology, and beyond. Baptist Health leadership strongly supports the Behavioral Health Department and passionately believes mental health is an essential component of general health and well-being, and is imperative to the communities we serve. We have strong support across the region from donors and endowments and are proud to be the leader in behavioral healthcare services across 3 counties in Northeast Florida.

Baptist MD Anderson brings an unprecedented level of oncology care to Northeast Florida by providing comprehensive, integrated oncology services in partnership with the nation's leading cancer center, MD Anderson Cancer Center. Baptist Health is proud to be one of only seven unique health systems in the United States chosen to replicate MD Anderson Cancer Center's multidisciplinary and proven model of care, and the Southeast patient care hub for MD Anderson Cancer Network®, a program of MD Anderson. Baptist MD Anderson will soon open a brand-new, 330,000 square foot patient-centered, state-of-the-art facility dedicated solely to the full spectrum of oncology care.

### **Qualifications**

- Board certified or board eligible Ph.D./Psy.D. in clinical psychology
- Specialty training in health psychology and experience in psycho-oncology and/or medical settings
- In possession of or able to obtain an active, unrestricted Florida license
- Eligible to be credentialed with major insurance panels
- Ideal applicants for this position will also have training and experience with program development and collaborating in an integrated multidisciplinary care

### **World Class Quality of Life**

- Northeast Florida is alive with over 1,100 miles of beaches and waterways, 80,000 acres of parks and trails, a strong and prosperous economy, multiple professional sports teams, renowned golf courses and diverse cultural experiences including world-class art and museums

- The area serves as home to some of the Sunshine State's best cost of living and the nation's most sought after quality of life
- Immediately within reach are world famous destinations, attractions, theme parks, entertainment and recreation for individuals and families of all ages
- Recently ranked by Forbes Magazine as the second most desirable city for relocation in the United States, Jacksonville is a modern and vibrant destination surrounded by the very best that Florida has to offer
- The Saint Johns County School District is the **#1** ranked School District in the state of Florida
